

SETTING THE COURSE FOR FUTURE ACTION

Virtual workshops,
December 15, 2020, 10:00–17:30 (CEST)

AGENDA

TIME	SESSION
10:00	From ideas to practical actions: launching the collective work (plenary)
	<p>Focus, facilitation and expected outcome of the workshops. Each workshop will address the following questions:</p> <ul style="list-style-type: none"> ▶ How can the actions be made more operational and concrete? Should additional actions be added? ▶ Who should contribute to the implementation of the actions and how? ▶ What role could the European Union play in implementing the proposed actions? ▶ When should the actions be implemented? ▶ What are the pre-conditions for the successful implementation of the actions?
10:45	First series of parallel workshops
	<ul style="list-style-type: none"> ▶ Workshop 1.a – Scale-up the implementation of nature-based ocean solutions to climate change and foster synergies across legal and institutional frameworks dealing with climate change, ocean and biodiversity. ▶ Workshop 1.b – Ensure sustainable seafood, recognising the role of fishing/aquaculture in the development of many communities and addressing overfishing and (IUU) fishing ▶ Workshop 1.c – Foster cross-sectoral and multi-stakeholder cooperation, as well as strengthen regional ocean governance for the sustainable sharing, management and protection of marine ecosystems and resources ▶ Workshop 1.d - Support the development of integrated and accessible ocean knowledge systems in support of effective international ocean governance.
13:00	End of the first series of parallel workshops
15:00	Second series of parallel workshops
	<ul style="list-style-type: none"> ▶ Workshop 2.a - Empower global institutions to design and implement measures to conserve and use marine biodiversity sustainably at the scale of ocean-basins ▶ Workshop 2.b - Support the development of sustainable blue economy projects and initiatives that promote or recognize marine ecosystem functioning and biodiversity protection ▶ Workshop 2.c - Support global compliance of internationally agreed rules and standards and boost accountability and transparency towards conservation objectives ▶ Workshop 2.d - Co-design transdisciplinary research to support international ocean governance by addressing complex societal challenges holistically
17:30	End of the second series of parallel workshops

**Virtual workshops,
December 16, 2020, 10:30–16:30 (CEST)**

AGENDA

TIME	SESSION
10:30	Third series of parallel workshops
	<ul style="list-style-type: none">▶ Workshop 3.a - Minimize pollution from source to sea and support innovative product design and new business models under a diversity of socio-economic contexts▶ Workshop 3.b – Strengthen learning systems and capacity and integrated governance to support adaptive management for resilient ocean governance and sustainable post-shock recoveries▶ Workshop 3.c – Support coherent financing for transition to enable protection of marine ecosystems and sustainable blue economy projects▶ Workshop 3.d – Support capacity and financing for sustained ocean observations and enhance sharing and integration of ocean data
13:00	End of the third series of parallel workshops
15:00	What are the main workshops' outcomes? (Plenary)
	Reporting back from workshops Putting the workshops' outcomes into wider European and International perspectives Follow-up/next steps under the International Ocean Governance Forum Final messages and words of thanks
16:30	End of the second IOG Forum event
